Children and Their Ways.

Everyone who is with children knows that they are continually doing and saying things that amuse and often instruct older ones. We have gathered a few of the most interesting and amusing things that we have heard of, and we think you will find them as interesting as we do.

The children told us that they had been playing a game called "The Little Boy and the Little Girl." The story was that a little boy and a little girl were playing in a field. The boy was very naughty and the girl was very good. The boy was always teasing the girl, and the girl was always forgiving him. One day the boy was very naughty and he teased the girl very much. The girl was very angry and she told her mother. The mother was very angry and she punished the boy. The boy was very sorry and he apologized to the girl. The girl was very forgiving and she forgave him. The boy was very happy and he played with the girl again.

There was a very little boy in an Oxford County village, this past summer, who thought a very good game was to be played. He had a very good idea of it, and he had a very good plan for it. He had a very good idea of it, and he had a very good plan for it. He had a very good idea of it, and he had a very good plan for it.
